Overview

This lamp is for indoor use. The lamp consists of a lighting system and a rotating shaft mechanism. The lamp can be controlled using only the combination knob/button, and its smart functionalities can be accessed using the Linkstyle app.

Features:

- 180 degree pitch and roll rotating arm
- Adjustable color temperature from 2700K to 5000K
- Non-flickering LEDs for eye strain protection

LED Light Bar
Arm
Hinge
Body Tube
Base
Control Knob
Power Port (rear)
DC Connector
Power Adapter

Basic Functions

- Connect the lamp to a power outlet using the included power adapter.
- Turn the lamp on or off by pressing the knob once.
- Increase or decrease the brightness of the lamp by turning the knob clockwise or counterclockwise respectively.
- Toggle the color temperature of the lamp by pressing and holding the the knob button for 3 seconds. The color temperature will cycle through 4000K, 5000K, and 2700K.

Smart Functions

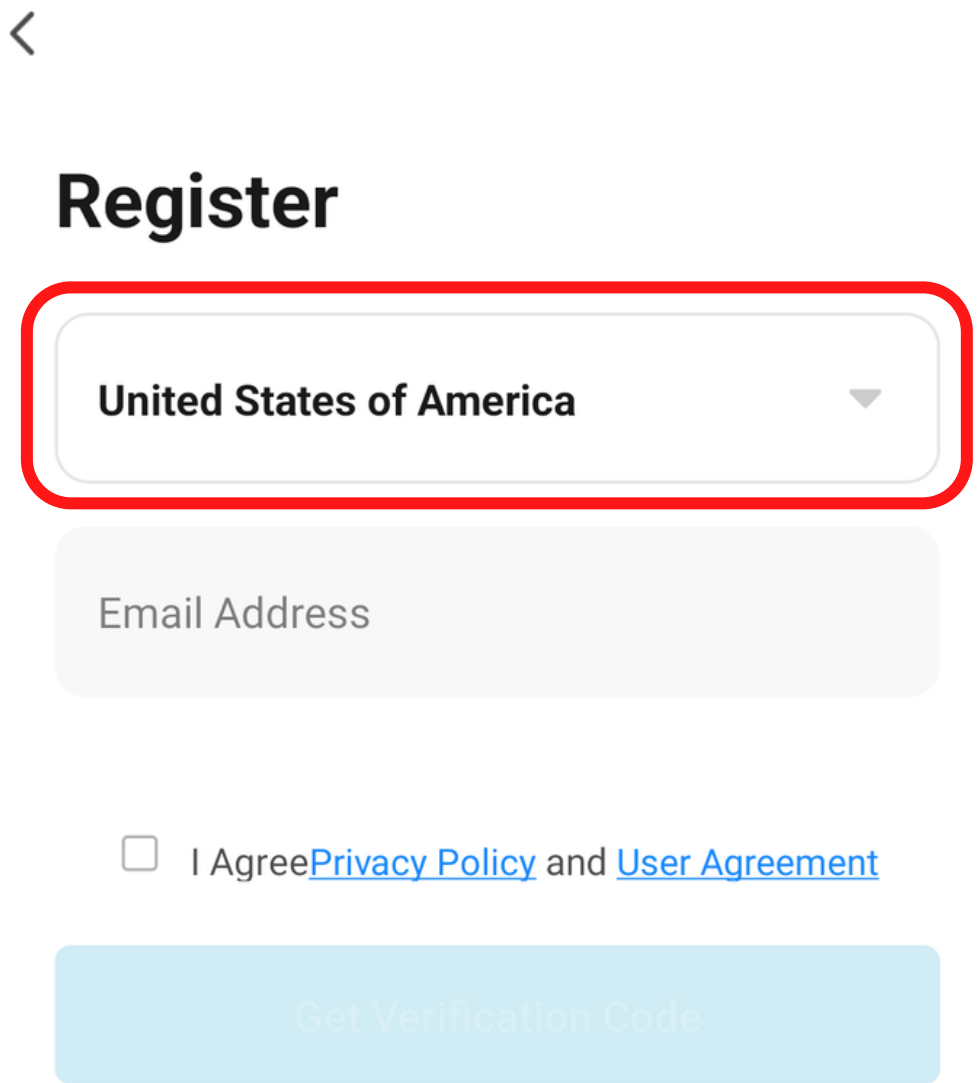

Install the Linkstyle app

Scan the QR code below to download and install the Linkstyle app. Register a new account on the app if you do not have one.

*Alternatively, you can also search for “Linkstyle” on the Apple App Store or Google Play Store to find the app.

*****Important Note:**

When registering an account in the Linkstyle app, be sure to set the region to United States of America.

Add the Lamp to app

1. Connect your phone to a 2.4GHz Wi-Fi network. This will be the network to which you will add the lamp.
2. Connect the lamp to an outlet using the power adapter.
3. While the lamp is turned off, press and hold the knob button for more than 5 seconds, and the lamp will turn on and begin to "breathe".
4. In the Devices page of the Linkstyle app, tap the Add Device button, then select the "More" tab, then "Lighting", scroll down and tap the "Table Lamp (Wi-Fi)" option.
5. Follow the on-screen instructions to complete setup.

*Note: for easier detection and setup, enable Bluetooth function on your mobile device as well.

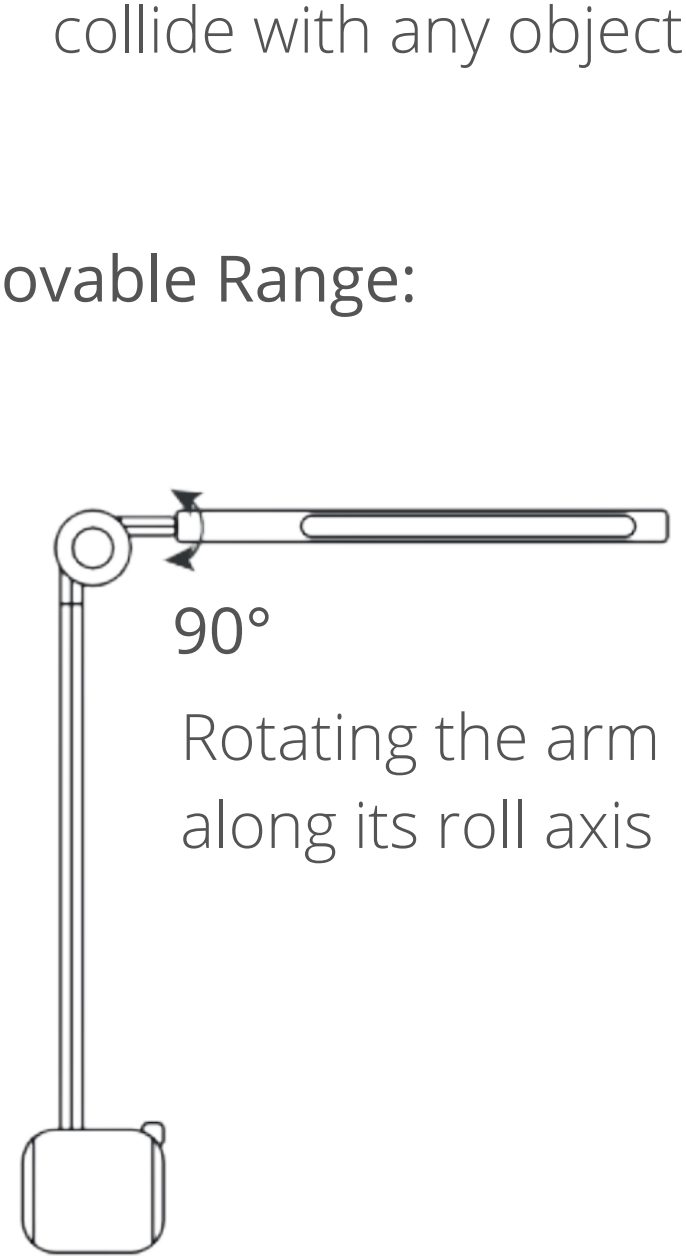

Notes & Specifications

Note

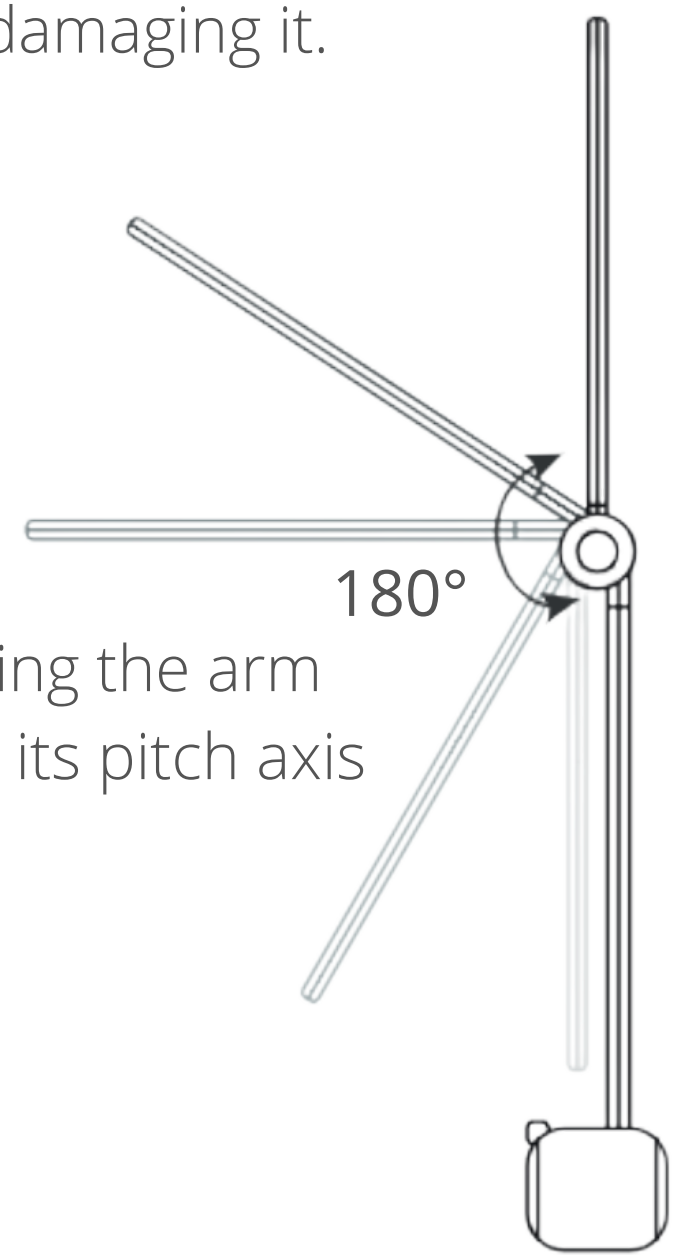

- Before plugging in and turning on the lamp, make sure that the power outlet voltage is compatible with the working voltage of the lamp.
- The LED modules in this lamp are not replaceable. When the LEDs have reached the end of their service life, the lamp will need to be replaced. Do not disassemble the lamp.
- The lamp may generate heat during normal operation. Please ensure that there is ample air circulation around the lamp and keep away any heat-sensitive materials or devices.
- Do not touch the luminous surface of the lamp while it is turned on.
- Always place the lamp on a flat, stable surface.
- Do not use non-standard power adapters with this lamp.

- Do not rotate the lamp arm beyond the movable range to avoid damaging the lamp.
- Do not use excessive force when pressing the control knob.
- Do not lean the lamp against any object or cause it to collide with any object to avoid damaging it.

Movable Range:

Rotating the arm along its roll axis

Rotating the arm along its pitch axis
